**BLVD's pace:** This plan acknowledges Boulevard may move slower at times. Built-in flexibility includes:

- **2-week buffer** between Feb 21 meeting and assessment deadline
- **Training start is flexible** - Can push to early April if needed
- **No one gets left behind** - pastors support individual dams during training
- **Monthly check-ins** after 90 days allow for course correction

**If things slow down:**

- Extend assessment window by 1-2 weeks
- Push training start without losing momentum
- Add extra coaching call if major blockers arise

**The goal is progress, not perfection.**
